CELEBRATING **50** YEARS OF PHARMACY EDUCATION IN KWAZULU-NATAL!!!

From the beginnings at Salisbury Island, to the University of Natal, to the University of Durban-Westville and now the University of KwaZulu-Natal; the School of Pharmacy and Pharmacology in 2011 turns 50. It is an historic occasion and milestone for us, and I'm sure one that brings you, our Alumni, Colleagues, Partners and Community, some satisfaction too.

We are embarking on a number of activities to celebrate this milestone. Our students are taking part in a Health Action International (Africa Chapter) initiative. We will be celebrating this as part of the International Conference on Pharmaceutical and Pharmacological Sciences Conference (ICPPS) in Durban this September. We do however, want to celebrate it with our Alumni as well.

We are reaching out to you, as Alumni, colleagues, friends and partners in the community to please inform us of your current contact details so that we may keep you informed of events as they are planned.

I look forward to all of you joining us in this celebration too.

Sincerely

Professor Fatima Suleman
Head: School of Pharmacy and Pharmacology

THE PREMIER UNIVERSITY OF AFRICAN SCHOLARSHIP
